The company ELMISYSTEMS SA based in the region of Attica joined the action "Digital Leap" with a budget of 51.6 million Euros. The Action aims at the digital transformation of micro, small and medium enterprises.

The total budget of the investment is 140,105.00 € of which the public expenditure amounts to 70,052.50 € and is co-financed by Greece and the European Regional Development Fund of the European Union.

The business plan approved for financing and implemented includes investments in the following categories:

- ✓ Supply, transport, installation and operation of new machines and other ICT equipment
- ✓ Supply of specialized software, office applications, website development, e-shop services etc.
- ✓ Other Digital Services (digital advertising, digital security policy certification, data entry and transfer, etc.)
- ✓ Wage costs of employees

Through participation in the Action, the company achieved:

- ✓ Improving its competitiveness
- ✓ Increase its profitability
- ✓ Enhancing extroversion
- ✓ Strengthening entrepreneurship
- ✓ Creating / maintaining quality jobs
- ✓ Digitization of procedures

With the contribution of EPANEK, the company was strengthened, bringing benefits to the country's competitiveness as well as to the local economy.
